**Lorraine L. Ukens : Arctic Expedition, Leader's Guide (Pfeiffer)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Arctic Expedition, Leader's Guide (Pfeiffer):

Spark synergy in an icy wasteland! With this activity, work groups wander into the unknown . . . and they emerge as high-performing teams. Activity participants embark on a simulated journey through a frozen, forbidding landscape, and experience team synergy as they never dreamed possible. The leader and participants will have a perfect opportunity to examine the impact of their interpersonal behaviors on one another, on the group's effectiveness, and on the outcome of their adventure. Any work setting is suitable for conducting this activity. The facilitator, who does not need to be a training professional, will need a copy of The Leader's Manual, which contains detailed instructions about conducting the simulation. Each participant needs a copy of The Activity, the guidebook to this exhilarating

experience. Teams rarely realize that their combined force vastly exceeds the power of any single team member. In this icy wasteland, leaders will spark a synergy that sets teams afire!
