**Ganesh K. Trichur : Asia and the Transformation of the World-System (Political Economy of the World-System Annuals)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Asia and the Transformation of the World-System (Political Economy of the World-System Annuals):

In this collaboratively authored book world-system scholars critically synthesize Asia's re-emerging centrality despite the myriad financial crises that have punctuated the end of the U.S.-dominated Cold War world order. From different vantage points the authors review the turbulent landscape of the region that points toward a new Asian world order as well as contradictory symptoms and signals. The text highlights the salience of Northeast Asia; the resurgence of Russia and Eurasianism; and the class, gender, and ecological implications of a conflict-ridden regional ascent for the future of the North-South divide and for the struggle between the spirit of Davos and the spirit of Porto Alegre.

About the Author Ganesh Trichur teaches political economy and historical sociology drawing upon world-systems perspectives. He has published several articles on neoliberal globalization and the current world crisis, the aftermath of Hurricane Katrina, and political Islamism and political Hinduism. His most recent work is on internal migration in China in the context of the resurgence of East Asia.
