**James. W Sawyer : Automotive Scrap Recycling: Processes, Prices and Prospects (Routledge Revivals)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Automotive Scrap Recycling: Processes, Prices and Prospects (Routledge Revivals):

Automotive Scrap Recycling provides a qualitative description of the steel scrap industry by focussing on its largest segment: conversion of obsolete cars into steel scrap. Originally published in 1974, this report covers issues such as the structure of the industry and quality problems with scrap steel as well as related policy issues. This title will be of interest to students of Environmental Studies.
