**Clotilde Dusoulier : Clotilde's Edible Adventures in Paris** before purchasing it in order to gage whether or not it would be worth my time, and all praised Clotilde's Edible Adventures in Paris:

Nice intro on what to expect when dining out. Since a trip to Paris is expensive my advice is to splurge on dining guides and have great fun anticipating your time there. I have 4. There's a lot of overlap in the "what to expect" chapters if the various guides. Not so much in the recommendations. She certainly gives a lot of options. I'm sure I'll be consulting this guide while we are in Paris. Clotilde's particular strength is the information on markets and shops. I do want to do more than hop between restaurants (of various sorts) and museums. 0 of 0 people found the following review helpful. The perfect book for your trip to Paris. By E. Gonzales I highly recommend this book for anyone going to Paris. This book is amazing. Every restaurant and bakery we visited from her recommendations were great. It helped us avoid those "Tourist Troughs" that are on the major streets. Also the prices for these restaurants were very reasonable. There can be no better authority about where to shop and eat in

Paris than from someone who lives there and is a food writer and cookbook author. So many other travel books seem to be written by tourists. This one will allow you to find those gems that are one or two blocks from the main streets. As the other reviewers mentioned, the size of this book is perfect for bringing with you. My wife only has a small handbag and it fits in there perfectly. This book made our trip so very special. I wish there was a version of Clotilde in Rome because we could have certainly used it. 0 of 0 people found the following review helpful. Bon appetit! By The Mummie! Clotilde's delightful book is proof - if needed - that shopping for food - whether it be to eat oneself or to give as gifts - can be great fun. She writes with such enthusiasm, guiding you around her home town, discovering the little gems which, as a normal tourist, you would be almost sure to miss. How many of us would take the Metro just to buy a loaf of bread?! So why is it that French women are such experts when it comes to shopping for food? For one thing, they pick things up, they smell them, they discuss them with the proprietors. Shopping in France is an art - not just a jostle around the local supermarket where you are strongly advised not to touch! An 'edible adventure' this exciting little book certainly is and I cannot wait to book our next visit to Paris to discover its other 'works of art' - but this time I will be clutching a hand that knows precisely where to take me! Merci Clotilde!
