From Gower : Contracting for Project Management before purchasing it in order to gage whether or not it would be worth my time, and all praised Contracting for Project Management:

0 of 0 people found the following review helpful. Five StarsBy VINCENTexcellent book1 of 2 people found the following review helpful. Footprint project management contractBy GAITAN MARIUSFrom Goover Handbook of Project Management to Contracting for Project Management, Mr. J. Rodney Turner is unmistakable : material in this book is excellent structured and well focused. Useful both beginners as well as those project managers with experience, the book presents many practical techniques and approaches. Reviewed the contents of the book before signing a contract, we always found something added or corrected.

In all but the smallest of projects the project sponsor inevitably has to buy in the goods and services of other suppliers. This requires people to make contracts so that they know the basis on which they are working with each other and to deal with any disagreements that subsequently arise. So a knowledge of contracting specifically for project management is essential if a project is to avoid difficulties and reach a successful conclusion. This book concentrates specifically on the contracting issues that surround projects of any size.

...professionals involved in procuring in projects would find Contracting for Project Management a useful addition to their library.' Supply Management About the Author Rodney Turner is a Director of EuroProjex, The European Centre for Project Excellence Limited. He is also part-time Professor of Project Management at Erasmus University, Rotterdam, and a Visiting Professor at Henley Management College, where he was previously Director and Professor of Project Management. He has published several books and papers on project management and edits the International Journal of Project Management.
