Something missingBy HarborChick CAAs a new accountant who will be helping my agency grant writer, this is a great starting point to see the overall process. However, I did notice something missing. I am interested in information regarding Project Revenue. Chapter 5 Page 88 says there will be a more detailed discussion in Chapter 11. However, the only thing mentioned in Chapter 11 is a short paragraph about endowments.0 of 0 people found the following review helpful. Five StarsBy donavon forquergood condition0 of 1

Step-by-step guidance, insider tips, and all the tools you need to create budgets and financial plans that win grants
Grants are a major source of funding in the nonprofit sector, and nonprofits invest considerable time, effort, and resources into obtaining them. A key aspect of any successful grant application initiative is budgeting and financial planning. A well-crafted budget, clearly delineating when, where, and how grant moneys will be applied, goes a long way toward selling a grantor on an applicant's vision. Unfortunately, many nonprofit professionals lack the know-how required to create budgets that instill grantors with confidence. This book fills that much-needed gap. Authors James Aaron Quick and Cheryl Carter New walk you through the entire budgeting process, providing invaluable insider tips, guidelines, and rules of thumb. More importantly, they provide you with indispensable guidance including a complete, step-by-step budgeting system, with each step fully documented and accompanied by an arsenal of powerful tools, plus much more to help you transform your organization's vision-and mission-into reality.
