From SAGE Publications, Inc : Green Culture: An A-to-Z Guide (The SAGE Reference Series on Green Society: Toward a Sustainable Future-Series Editor: Paul Robbins) before purchasing it in order to gage whether or not it would be worth my time, and all praised Green Culture: An A-to-Z Guide (The SAGE Reference Series on Green Society: Toward a Sustainable Future-Series Editor: Paul Robbins):

Green Culture: An A-to-Z Guide explores the on-going paradigm shift in culture and lifestyles toward promoting a sustainable environment. After years of discussion about the environment dating back to the 1960s counter-culture, the

recent explosion of green initiatives has induced the general public to embrace all things green, from recycling in the home to admiring green celebrities. This volume assesses the green cultural transformations by presenting some 150 articles of importance to students of sociology, history, political science, communications, public relations, anthropology, literature, arts and drama.
