**From Asian Development Bank : Handbook for Rooftop Solar Development in Asia** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Handbook for Rooftop Solar Development in Asia:

Drawing on the Asian Development Bank's experience installing the rooftop solar photovoltaic system at its headquarters, the Handbook for Rooftop Solar Development in Asia hopes to demystify the process of developing solar photovoltaic projects in urban areas. The handbook provides detailed descriptions and guidance for all stages of development, including initial prefeasibility assessment, design, financing, procurement, and operations and maintenance. The Asian Development Bank hopes that entities looking to take advantage of the benefits of solar photovoltaic systems would find the development process made transparent and streamlined, and that this handbook

would encourage the spread of solar photovoltaic systems in cities throughout developing Asia and the Pacific.
