**From Palgrave Macmillan : Self-Reinforcing Processes in and among Organizations** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Self-Reinforcing Processes in and among Organizations:

Management and organization research has rediscovered individual agency, innovation and entrepreneurship. As such, there is a risk of overlooking the power of self-reinforcing processes in and among organizations. This volume

redirects attention to these processes, including: escalating commitment, organizational imprinting and path dependence.

About the Author: RG SYDOW is a Professor of Management at the School of Business Economics of the Freie Universitauml;t Berlin, Germany, where he earned his doctorate and habilitation in business administration.
