Peter Kent : SEO For Dummies before purchasing it in order to gage whether or not it would be worth my time, and all praised SEO For Dummies:

3 of 3 people found the following review helpful. InformationalBy KGIt's very detailed, much much much more detailed than SEO Step-by-Step by Caimin Jones. I haven't put the information learned in SEO for Dummies into practice, but the author does admit outright that the reader won't be able to maximize SEO simply by reading the book. The author writes that he realizes his audience is most small business owners and that this book should help give them a clue about the SEO-maximization company they're hiring. That was kind of disappointing, in spite of the intense detail given in this book.3 of 3 people found the following review helpful. AWESOME-ORGANIZED-definitely not just for dummies!By OroPretoThis book is a FANTASTIC overview, definitely deep/detailed enough to get a GREAT start with SEO.It is not for Dummies for sure - much more than a simple overview. Well-organized.I HIGHLY recommend this book.2 of 2 people found the following review helpful. Until I purchased you book I really had no idea ...By S R LaneUntil I purchased you book I really had no idea what SEO was all about. I may never be a whiz-kid ,but I am not as big a Dummy as was before. Thanks.

Your fully updated guide to search engine optimization Packed with tips, tricks, and secrets, *SEO For Dummies* shows you how to create and maintain a website that ranks at the top of search engines and drives high-volume traffic.
