**From Routledge : Social Enterprise and the Third Sector: Changing European Landscapes in a Comparative Perspective** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Social Enterprise and the Third Sector: Changing European Landscapes in a Comparative Perspective:

The concepts of social enterprise and social entrepreneurship are rapidly attracting increased attention in academic spheres and from policy-makers, as well as field workers who are setting up new initiatives or reshaping their organizations. These concepts are perceived as defining innovative and dynamic responses to major global challenges in today's societies. The debate about social enterprise is now world-wide, with lively exchanges between American and European scholars. However, the research and landscapes still differ significantly in different regions, and diversity also exists within specific regions such as Europe. This book presents the most comprehensive set of contributions reflecting the European-wide debate, but with frequent connections to developments in other parts of the world. This book is a result of work carried out by members of the EMES International Research Network, which is a pioneer in this field. *Social Enterprise and the Third Sector* will appeal to all researchers who focus on the third sector, social economy and social enterprise, to MBA and postgraduate students, as well as to intellectual social enterprise leaders and practitioners. It will soon become a key reference for all those who want to explore the full richness of these concepts and follow this important academic debate.
