Although publishing and digital cultures are evolving at highly different speeds in the Spanish markets, technology and the ebook both offer a broad spectrum of business opportunities for publishers in Latin America and Spain. The soaring number of ebooks published in those countries, the growing importance of digital reading and the increasing role of the Internet as a distribution and marketing tool for books, all lead to the assumption that the evolution of the digital market is a reality in most Latin American countries. Having looked closely at digital and publishing trends in

various countries (Argentina, Brazil Colombia, Chile, Ecuador, Spain, Mexico, Peru), this report, compiled by Dosdoce.com in collaboration with Bookwire, offers a series of indicators and prospects regarding each of these markets, with the purpose of offering a tool for publishers, booksellers, authors, investors, the media and experts to understand the changes being experienced by Spanish-speaking and Portuguese markets, together with the business opportunities these changes offer professionals in the publishing sector worldwide.
