We started what is now a successful eBay store from the information contained within this book. Ebay changes their policies, practices and expectations of sellers often so be sure to get the latest version of this book.57 of 60 people found the following review helpful. Good eBay GuideBy PCMarvHave made a quick scan of the book and have read a couple of chapters of immediate interest. It answered all of my questions about eBay so far.I also purchased the "eBay Business All-In-One for Dummies" (the 9 books in 1 edition) at the same time. The All-In-One had basically the same information (and more) as the "Starting an eBay Business" book. If you are looking for an overall eBay book I would go with the All-In-One book.0 of 0 people found the following review helpful. One StarBy Jo FlemmingI must really be a dummy, because I can't follow a book for dummies.
