From Springer : Strategic Decisions before purchasing it in order to gage whether or not it would be worth my time, and all praised Strategic Decisions:

Over the past ten years, there has been growing interest in the process of strategic decision-making among both managers and researchers. Strategic decisions are important for five main reasons: They are large-scale, risky and hard to reverse; they are a bridge between deliberate and emerging strategies; they can be a major source of organizational

learning; they play an important part in the development of individual managers and they cut across functions and academic disciplines. *Strategic Decisions* summarizes the current state of the art in research on strategic decision-making, with chapters prepared by leading strategy researchers. The editors also present implications for current application and proposed directions for future research.
