New Edition (No-Nonsense Guides):

An in-depth look at two decades of a movement that aims to challenge the ethical foundations of the global market. Transnational corporations look for the cheapest suppliers, while the fair trade movement insists on a premium for the producers at the start of the chain. Sally Blundell uncovers the origins of fair trade and what it is likely to become.

"For anyone who wants a lucid, factual, reliable guide to some of the most important issues of our time, I strongly recommend you check out the No-Nonsense Guides." Howard Zinn, historian, playwright and social activist
