been better timing. If you have worked with non-profit boards for a while, a lot of the ideas here will seem familiar and unexciting. But if you are new to Board service, much of this may be new for you. The advice here is solid and realistic. It recognizes that non-profits (like everything else) are made up of humans, with weaknesses and feelings, etc. It takes these facts into consideration in discussing what to do if a Board member -- or an executive -- is not performing in a way that is good for the organization: it's a difficult situation, but there are ways to approach it. Some specifics: How do you get good people on the Board? How should Board members interact with staff members? How do you make sure you're not failing in your responsibility to be sure funds are handled right? (What IS your responsibility?) Almost any question that could come up for you as a Board member is dealt with here, briefly but sensibly. 1 of 1 people found the following review helpful. Excellent resource book for non-profit boards By MOEI have purchased several different reference books over the years regarding non-profit boards. The Nonprofit Board-Answer Book is very complete and an easy reference for any learning and/or situations. As resource chair for a very large board, we began purchasing and gifting to new board members, during their orientation, several years ago. It helps everyone to have a common reference point. 1 of 1 people found the following review helpful. The Nonprofit Board Answer Book: A Practical Guide for Board Members and Chief Executives By Grande Writer This is an amazing resource. It clearly lays out the board's responsibility; especially in the area of fundraising. The Mini Board Self-Assessment Survey is a great tool for avoiding mission drift and evaluating whether the board is on track. I share this resource with individuals preparing to apply for 501 (c) (3) designation as a charitable organization. Thank you for compiling this essential guide.
